iCause Global Foundation

ENABLING IMPACT

Investment Profile

PROJECT SUMMARY

iCause Global Foundation is stepping up to a critical need in our current economy -- helping social impact enterprises and entrepreneurs get the funding they vitally need to fulfill their important missions around the world. Our work will touch countless people, create and improve industries and economies, help preserve our planet's biodiversity, further social impact initiatives that may otherwise have failed, and positively impact our world in ways we can't begin to imagine right now. The possibilities are limitless!

Your support of 'Enabling Impact' directly funds iCause Global Foundation's innovative approach to recycled philanthropy – and helps enable us to continue and enhance our support of all of the projects in our portfolio, as well as the evolving landscape to come.

This project is needed internally to further develop and refine technology to work with more complex projects, retain professional fundraisers and leverage the reach of influencers, enhance marketing efforts to reach more donors, and to provide more sophisticated vetting of projects coming into the foundation's program - all enabling iCGF to aid in solving more critical global challenges.

LAST UPDATED: 08-JUNE-2024

WHY FUND THIS PROJECT

iCause Global Foundation (ICGF) was created to provide an alternative for social impact entrepreneurs and enterprises needing simple, affordable investment. Operating this vital foundation, while remaining lean, requires ongoing funding to enable it to continue and scale its important mission. Without this needed funding, the foundation cannot sustain its existence.

SOCIAL AND ECONOMIC IMPACT

ICGF carefully selects social enterprise projects for financing based on the degree of social impact and alignment with the United Nations Sustainable Development Goals (UN-SDGs). Generous donors enable ICGF to strategically lend to companies founded on great ideas and plans for significant social and economic impact.

Beyond this, ICGF can explore parallel verticals and promote connections to stakeholders which align to common goals. Funding Enabling Impact enables this important exploration and collaboration to happen.

PRODUCTS AND SERVICES

ICGF offers simple, affordable business loans which fund local entrepreneurial businesses who seek to solve social challenges, in alignment with the United Nations Sustainable Development Goals. Loans are repaid and 'recycled' without the need for repetitive donor solicitations.

SUPPORT THIS PROJECT

Please donate to Enabling Impact which gives ICGF the resources needed to help social impact innovators around the world.

For smaller donations under $500, please Donate here.

For more generous donations, please send an email to projects@icauseglobal.org for guidance and instructions.
