SASHA INCHI

Investment Profile

PROJECT SUMMARY

Sasha Inchi is an Agua de Dios, Colombia project to create an industry using existing resources (the land) that may generate self-sustainability for the local community to reach their educational, social, environmental, financial, nutritional, public and economic goals within the region they serve.

This objective leads the development and welfare of the community to a next level due to the several values it generates. This productive project offers the students at the boarding schools the opportunity to learn the whole production chain that includes agricultural planting process, harvesting, industrial and marketing process.

This will allow the children to acquire business training with adequate technical knowledge and a culture of entrepreneurship and productivity.

LAST UPDATED:
21-Oct-2020

This project is in preview mode and is currently under careful review by ICGF directors. It is not currently accepting donations. We hope to offer this for donation/social impact investing soon.

WHY FUND THIS SACHA INCHI PROJECT

For 21 years Extending a Hand Foundation, a 501(c)(3) non-profit organization located in Delray Beach, FL, has helped a community in Agua De Dios, Colombia, orphaned, abandoned and abused children who are supported by the Congregation ... The Nuns.

The objective: help the Congregation to become self-sufficient and so, reach financial stability to continue with their valuable job of educating those children. Taking this into account, we are trying to bring a productive system that not only allows them to access the resources they need as well as training the children for a productive life and a promising future.

WHAT IS SACHA INCHI

Sacha Inchi is a seed from Peru, whose nutritional and therapeutic characteristics are of great value to the food and health industry. The domestic cultivation of Sacha Inchi, in addition to contributing to people|s health, is a sustainable source of income for many families.

SOCIAL AND ECONOMIC IMPACT

Number of Jobs:
Agricultural - 8 Jobs, Plant - 9 Jobs, Sales / Admin - 5.5 Jobs

Expected Impact post Investment:
Financial independence for the Congregation. A career path for the student at the Orphanage.

SOCIAL IMPACT

An expected impact of the project is a change Agua de Dios community mindset, which has lived on subsidies and government aid for decades and has become accustomed to poverty and underdevelopment.

ECOLOGICAL IMPACT

The project will incorporate the organic methods in the crop fields as well as in the production plant. This means the supplies used will be at their highest organic percentage available, including the fertilizers and plague treatments.
